

# ROCK PAPER SCISSORS

---

## FILES INCLUDED

- |                             |                          |
|-----------------------------|--------------------------|
| 1. tk.exe                   | The executable game file |
| 2. tk.py                    | Source code              |
| 3. Harry P.ttf*             | Font file                |
| 4. CrimesofGrindelwald.ttf* | Font file                |
| 5. Cabin.ttf*               | Font file                |

*\*The exe file runs perfectly without these fonts installed. The screenshots are taken with the font installed.*

## INTRODUCTION

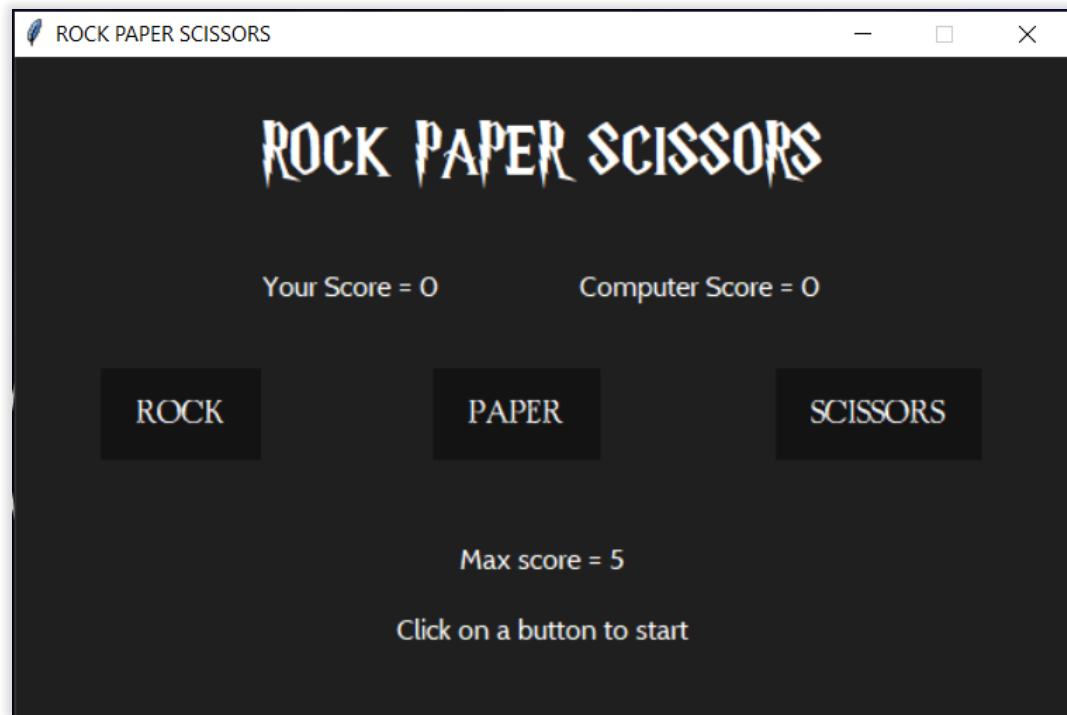

Rock paper scissors is a hand game usually played between two people, in which each player simultaneously forms one of three shapes with an outstretched hand. These shapes are "rock", "paper", and "scissors". – [Wikipedia](#)

The program is a virtual simulation of the game made in python using the random library to generate a random integer which corresponds to the random choices made by the computer.

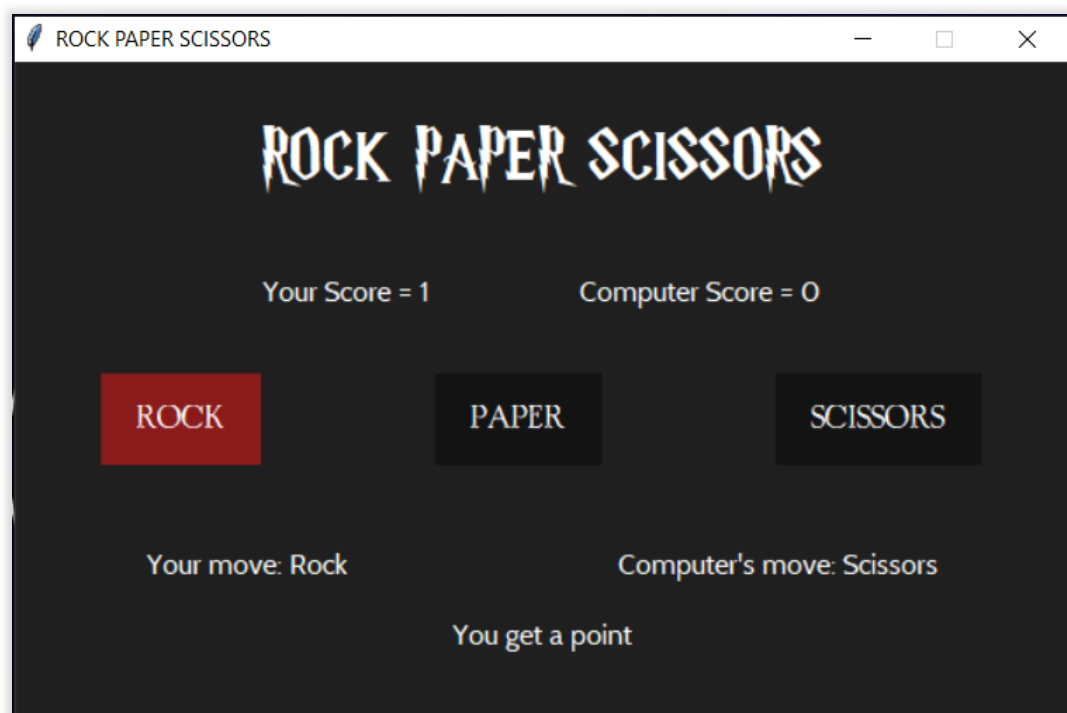

The GUI is designed using the Tkinter library using its basic widgets and functions.

# SCREENSHOTS

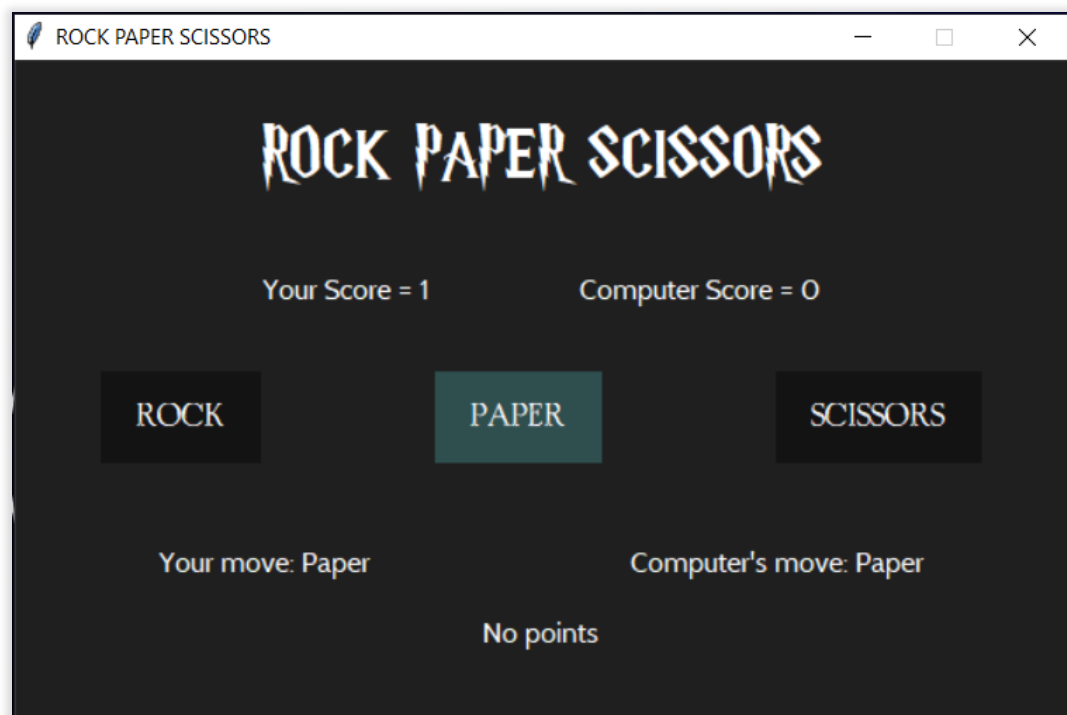

## 1. Landing Screen

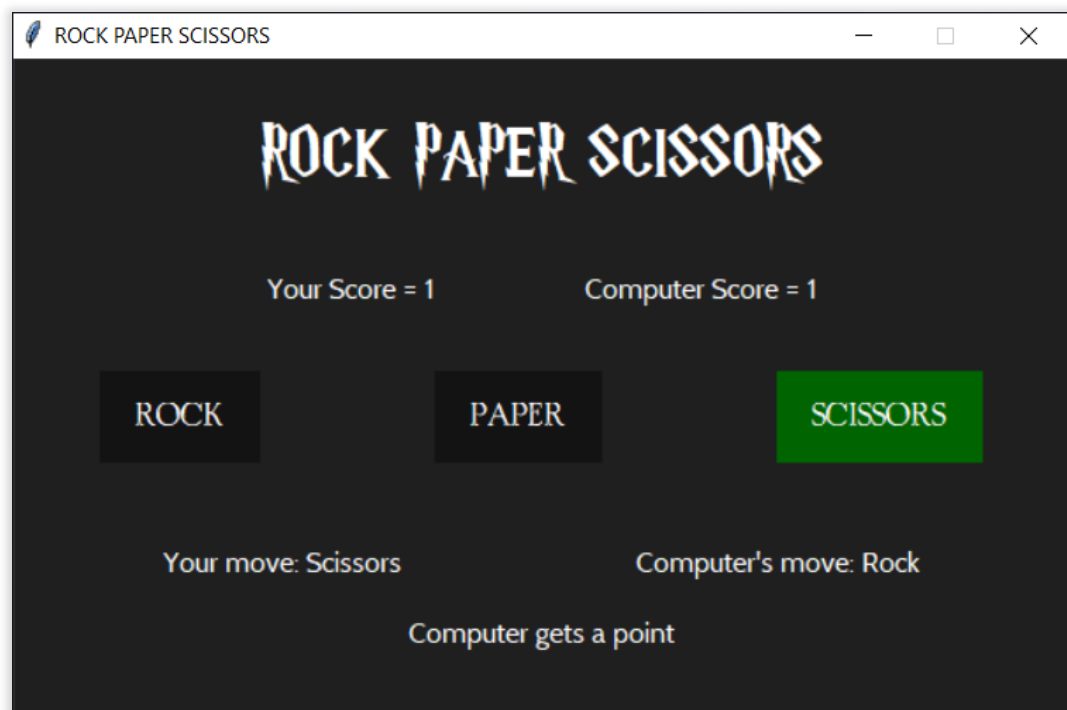

## 2. User gets a point

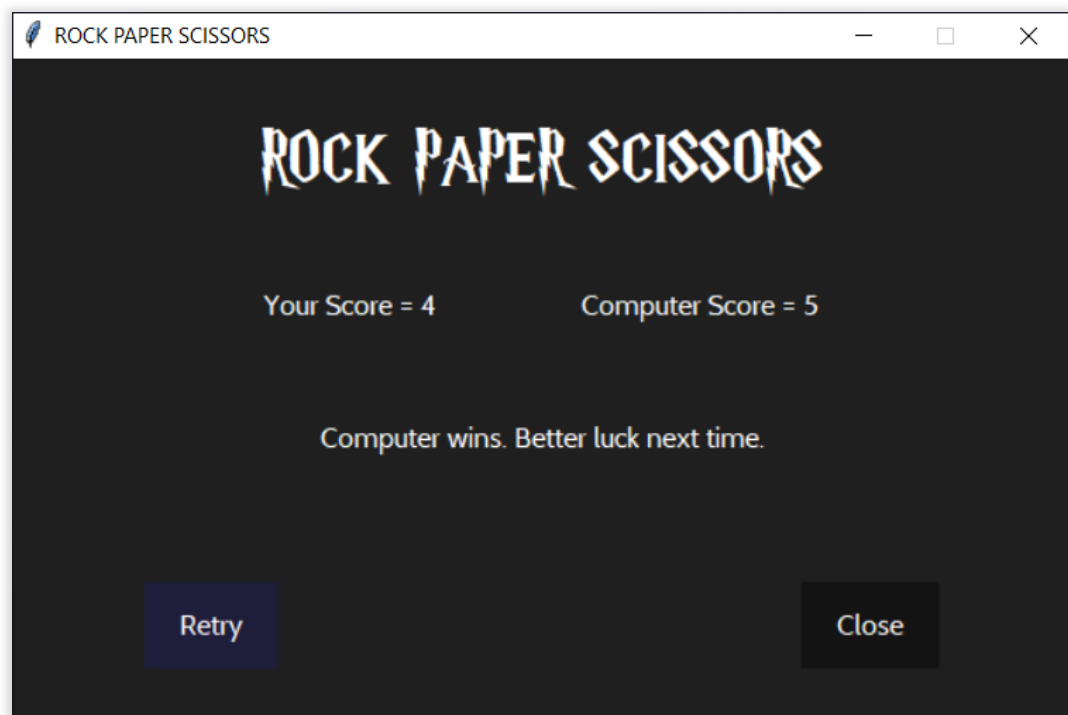

3. No one gets a point

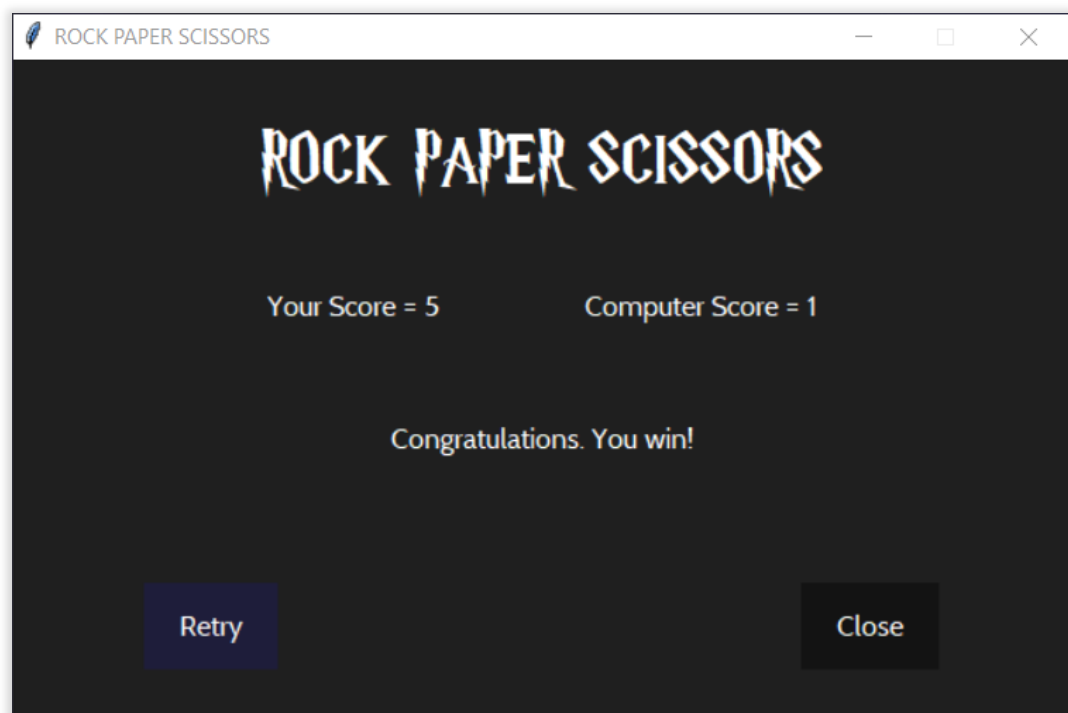

4. Computer gets a point

5. Computer wins

6. User wins

7. Retry Button – Resets the game

8. Close Button – Closes the window
